

# Innovation drives safety!

## ALTIMAX SUMMER

The new Altimax tires provide super grip on dry and wet roads, even at performance limits. Latest compound and contour technology ensure long life and high milage performance.

With RTM „Replacement Tire Monitor“ and VAI „Visual Alignment Indicator“ General Tire sets new standards for your safety.

### Extensive size range for nearly all fitments:

- |          |            |
|----------|------------|
| CITROEN  | OPEL       |
| FIAT     | PEUGEOT    |
| FORD     | RENAULT    |
| MERCEDES | TOYOTA     |
| NISSAN   | VOLKSWAGEN |

### ALTIMAX RT

Developed for European weather conditions, the new Altimax RT offers outstanding grip on both, wet and dry roads. Its non-directional tread pattern additionally offers long service life and enhanced riding comfort.

### ALTIMAX HP/UHP

The new Altimax HP/UHP has been designed and developed for fast, powerful vehicles. Its sporty directional tread design not only looks good, but also makes no compromise when it comes to safety and performance.

## Innovation par excellence – with two new exciting technologies!

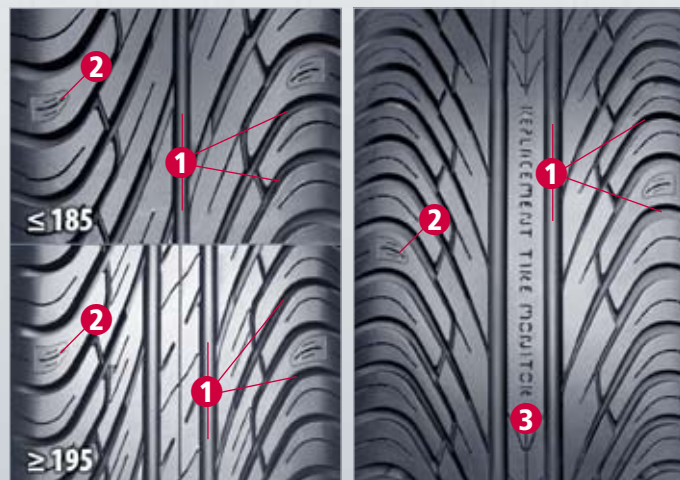

The Replacement Tire Monitor gives the user timely warning if a tire is worn and has to be replaced. Just before the tire reaches minimum tread depth, the encription „Replacement Tire Monitor“ will change to „Replace tire“. Available for Altimax HP and UHP.

The Visual Alignment Indicator Technology is a system of small sypes with various depths, equally positioned around the tyre. If these sypes of the VAI wear irregularly (e.g. one side more than the other), there might be a missalignment of the wheels.

## Features / Benefits

### Altimax RT

### Altimax HP/UHP

- 1 Broad Grooves** in the center and steep extended V-shaped **lateral grooves** from center to shoulder ensure efficient water drainage
- 2 Vai Technology** warns you of incorrect tire alignment
- 3 RTM Technology** indicates minimum tread depth
- 4 Latest compound and tyre contour technology** ensure extra long life of the tyre and therefore high mileage performance.
